

## Top Panzer Aces and Recipients of the Tank Destruction Badge

This is a check list of the top Panzer aces of World War II and a list of recipients of the Tank Destruction Badge. Please note that the list of Tank Destruction Badge recipients is not complete. The list of top Panzer aces is reasonably accurate, but there is much controversy concerning the number of victories of some and the correct ranking. It's the best I could come up with. If anyone can add to either list it would be much appreciated.

# These ones aren't KC holders but were considered as such for sometime, this of course doesn't mean they didn't destroy the number of panzers in question. Apparently either the documents about the award don't exist anymore or they just thought they should have received it. Another thing you must understand is that Hitler gave an order to decorate any soldier, who destroyed more then 6 tanks with a Pz.Faust or Pz.Schreck, with KC.
